

General brochure 2024

About **us**

We have more than 18 years of experience manufacturing and distributing parts and pieces for the coil and winding of transformers, electric motors, and street lighting industries.

Our company offers a variety of products and supplies certified by accredited organizations. We work closely with leading companies in the market, becoming a great ally in the national and international territory.

Our Values

Integrity: We act responsibly and are committed to the environment, our people, our clients, and the community in general.

Innovation: We are constantly seeking to innovate our processes so we can offer outstanding and valuable products to our customers.

Trust: Transparency is the basis of everything we do, this is why we provide security and support.

Service attitude: We focus on listening and understanding our clients to provide solutions, meet their needs and build solid and lasting relationships.

Excellence: We work as a team to achieve excellence, challenge ourselves and deliver the best of our experience in products, service, delivery and price.

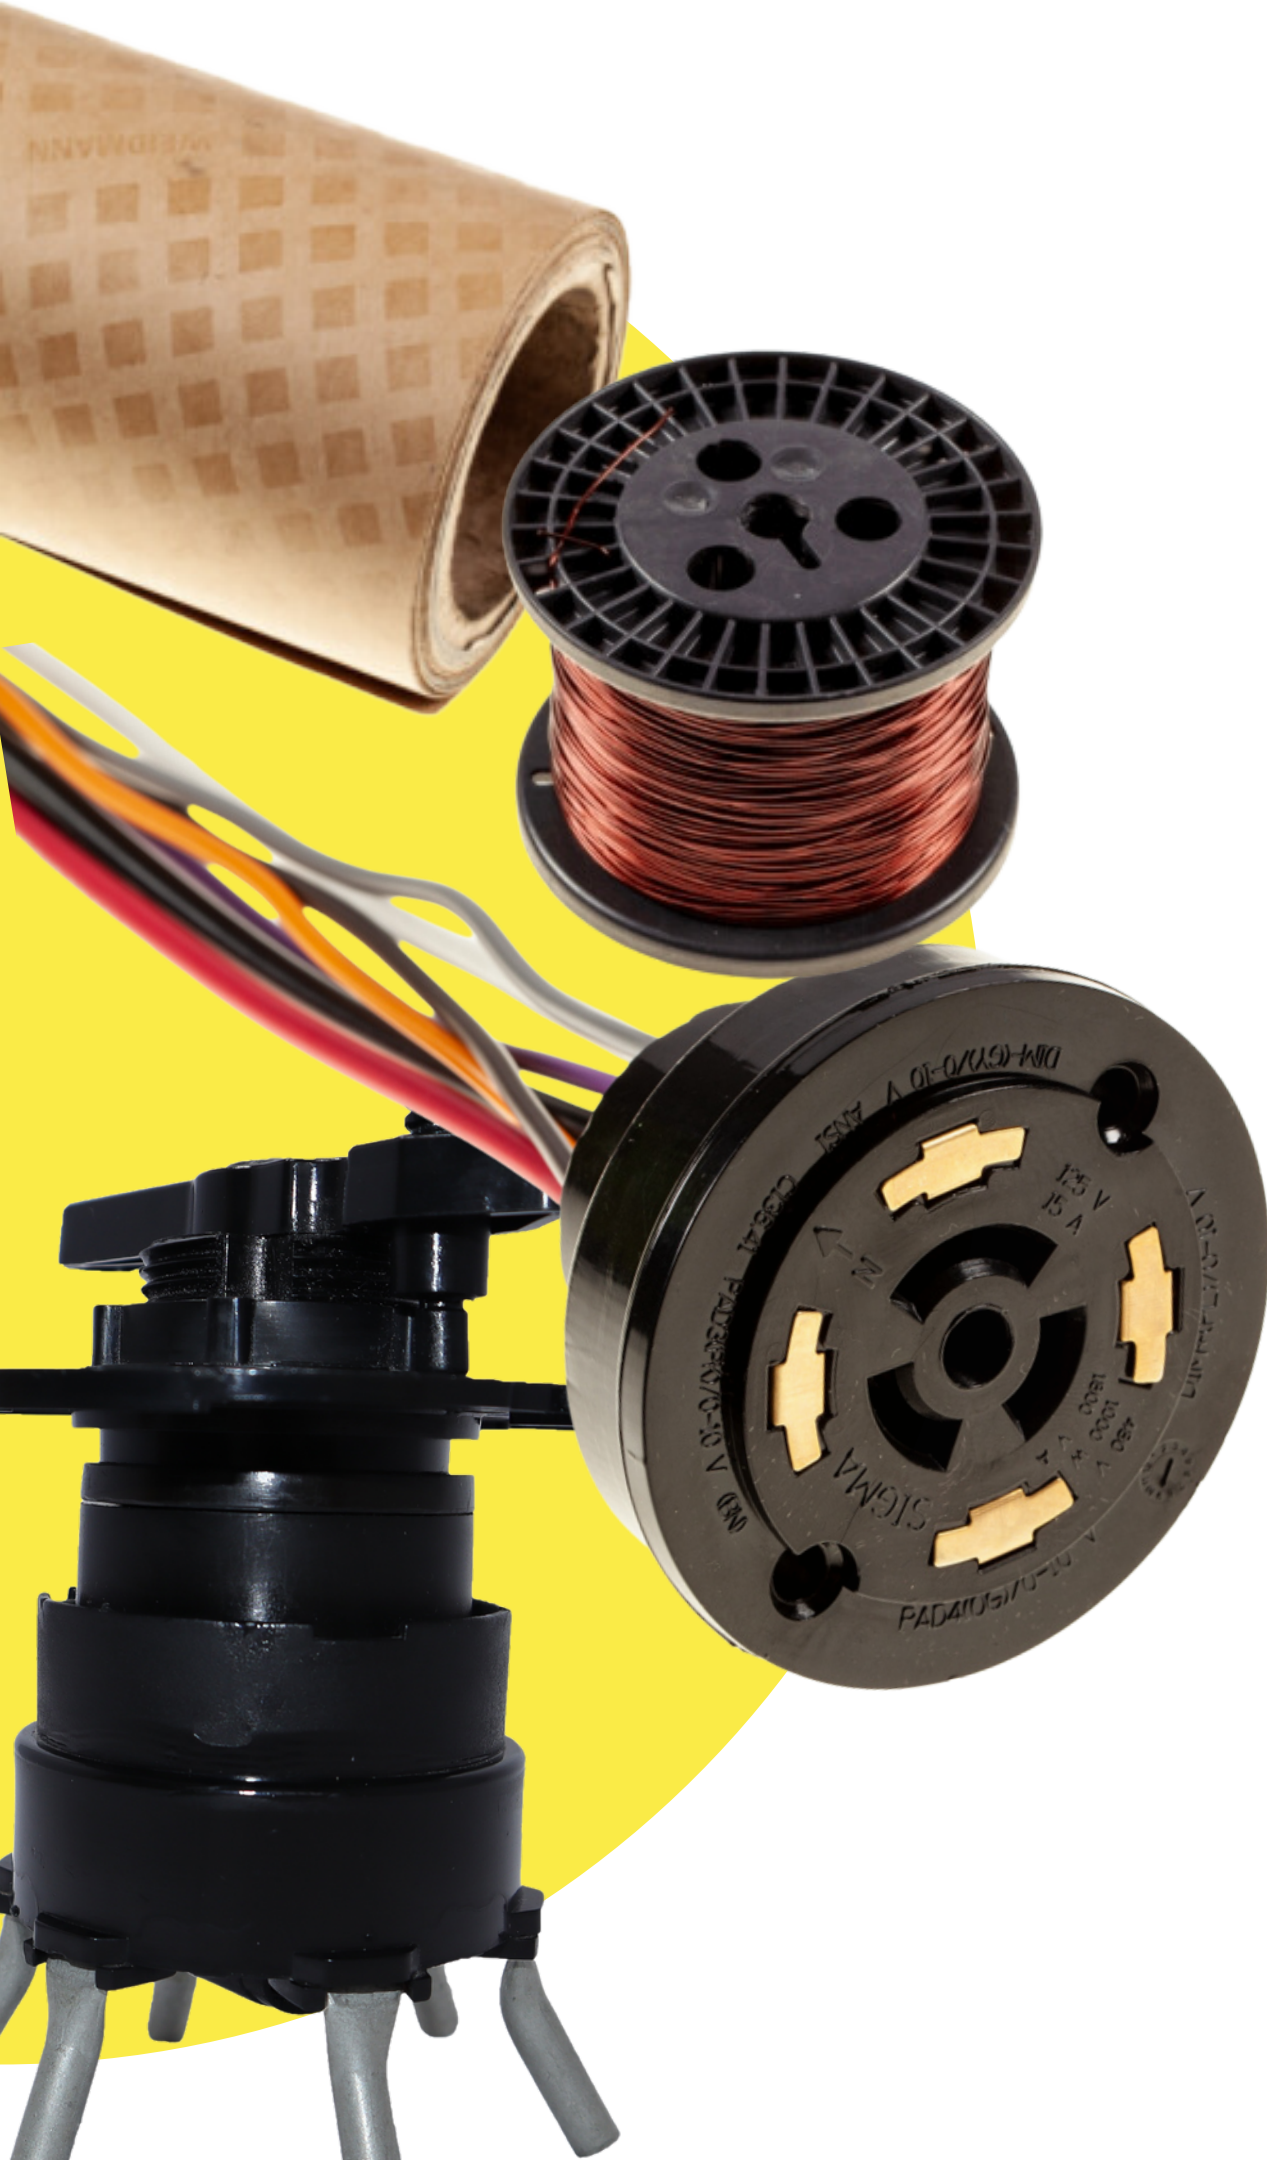

What makes us **different?**

We are committed to offer certified products with the highest quality, efficient delivery times and competitive prices. The above, backed by our experience, business operation and our great human team.

We are constantly evolving, innovating and developing technological solutions and products that adapt to our customer and the market needs. This allow us to offer a leading value proposition in the industry.

CMSA is a responsible company committed to sustainability and the environment. Our processes are based on an integrated management system and we are accredited with multiple quality certificates including the ISO 9001.
